Bottled water is not provided in your room so as to reduce our environmental footprint. Instead, fill up the bottle or jug provided with our premium filtered water tap and stay hydrated.

For the convenience of potable water whenever you want it, a tap which provides premium drinking water using a nanofibre membrane technology is installed in your room (this tap is not to be mistaken for the regular tap meant for washing also available in the room).

If you need something cold, check out the ice maker at Village Hub.

以减少我们的环境足迹，您的房间不提供瓶装水。

您可用我们提供采用纳米纤维膜技术的优质净水器装满瓶子或水壶并保持水分。

这个过滤水龙头处于在洗涤常规水龙头的右手边。

如果您需要冷饮，请前往悦乐区的制冰机自取。
